

## PANADOXINE™ P ANTI-IRRITATION STUDY RESULT **NEW !**

Application of Panadoxine™ P significantly increases skin surface hydration and prevents dermal irritation caused by razor shaving.

Panadoxine™ P (Pyridoxine Cyclic Phosphate) is a new vitamin B<sub>6</sub> derivative with a superior stability in light and heat. In our new clinical study, Panadoxine™ P application on legs over the course of 10 days (7days application + 3days application after shaving), Panadoxine™ P gave a significant improvement in hydration and helped prevent razor burn.
